

TREKMATES®

AUTUMN WINTER 2026

TREKMATES®

Since 1997, Trekmates® has been designing dependable outdoor accessories built for Britain's ever-changing weather. For AW26, we celebrate the real moments that make us head outside - the steady climbs, shared flasks, and sideways rain. Our latest collection combines trusted technologies with thoughtful design, from waterproof headwear to insulating gloves and fleece essentials - reliable, functional gear made to keep you warm, dry, and comfortable wherever your adventures take you.

TREKMATES®

When temperatures drop and the cold wind bites, keeping your hands warm and protected is essential. Whether you're braving a brisk weekend walk or heading up high above the snowline, a good pair of gloves makes all the difference. Our range of GORE-TEX gloves

Our updated Friktion is a highly protective and dexterous glove designed for active adventures. Low environmental impact, fully waterproof and breathable GORE-TEX ePE insert with FC free DWR finish ensure your hands remain dry and comfortable. A non-slip silicone printed microfibre palm mean a solid grip even on the wettest of surfaces. A brushed liner keeps things soft on the inner. They're touch screen compatible too.

TREKMATES®

Our proprietary DRY waterproof fabrics have been a cornerstone of our range for over a decade — dependable, great value, and built for real performance. They epitomise what we stand for as a brand: reliability without compromise.

Introducing the all-new Gratton DRY Glove — designed to keep you warm, dry, and in control. Featuring DRY Protect™ waterproof, breathable technology (5000/5000) and Primaloft® Gold insulation for lightweight warmth, it's built for comfort and capability. A real leather palm, abrasion-resistant softshell panels, and pile lining ensure durability and dexterity, while a drawcord cuff and pre-curved fit keep you protected through every cold-weather climb and winter walk.

TREKMATES®

With the ever-changing climate, seasons are stretching and the weather's becoming more unpredictable. For the in-between days — when it's not pouring but you still need protection from biting winds and passing showers — our windproof glove range has you covered.

The Pico Mitt delivers serious warmth in a lightweight, windproof design. Made from recycled polyamide with an FC-free DWR finish, and insulated with SEE® recycled fill (400g/200g), it offers lasting comfort and dependable protection. A tough PU palm, brushed lining, and elasticated wrist complete a glove built to lock in heat and keep you moving, whatever the weather brings.

TREKMATES®

Our GORE-TEX headwear range now features the latest ePE membrane, combining tried-and-tested reliability with modern performance. Built to keep you dry, windproof, and breathable on the wettest hill days, each piece offers thoughtful details and a secure, comfortable fit, making it an essential companion for unpredictable British weather.

The updated Stanage Cap combines classic style with modern performance. Its lightweight recycled 2L GORE-TEX, taped seams, and FC-free DWR finish deliver waterproof, windproof, and breathable protection, while the triple-fold peak, wicking mesh lining, brushed headband, and elasticated rear ensure comfort, secure fit, and easy stowability.

TREKMATES

TREKMATES®

Unpredictable autumn conditions call for dependable protection — that’s where our DRY headwear range excels. Featuring waterproof, breathable DRY Protect™ technology, lightweight, durable shells, and thoughtful details like wicking linings, adjustable straps, and molded peaks, these caps and hats keep you comfortable, dry, and secure, whatever the weather brings on the hills or trails.

The Fornax Dry Cap combines baseball-style comfort with DRY Protect™ waterproof, breathable technology (5000/5000), a lightweight 50D shell with FC-free DWR, and taped seams. A 7cm waterproof peak, wicking lining, brushed headband, and adjustable back strap ensure a secure, comfortable fit all season long.

TREKMATES®

Dependable accessories that deliver high performance and exceptional value are at the core of what we do — and no product showcases this better than our gaiters. Often overlooked, gaiters can make a big difference on long summer hikes by creating a protective barrier between your legwear and footwear. They keep out debris, moisture, and brush when traveling through wet ground or rugged terrain.

Our GORE-TEX gaiter range with an ePE membrane and an FC-free DWR finish — provide reliable waterproof protection with reduced environmental impact. Abrasion-resistant lower leg panels guard against snags, while full-length side zips make them easy to get on and off. Elasticated silicone cuffs, metal lace hooks, and a replaceable underfoot strap ensure a secure and lasting fit in all-conditions.

TREKMATES®

Providing waterproof cover for your whole body with pack friendly weight and size, ponchos are a great addition to any hillwalking kit list. Ideal for those damp summer days that are too warm for a waterproof jacket, keeping you dry whilst allowing you to stay cool and comfortable. Our lightweight ponchos can be thrown on over whatever you're wearing as soon as you feel the first drop of rain.

The Deluxe Full Zip Poncho is perfect for those looking for protective and packable option when on long distance travels. DRY waterproof polyester fabric with an FC free DWR keeps those blustery showers at bay. Full Zip centre front makes for easy donning and doffing. Mid length sleeves and elasticated hood give great coverage whilst its integrated zip away backpack cover is large enough to take an 85ltr pack with ease. Weighing just 420g its packs neatly into the supplied stuff sack and can be tucked neatly away into any travel system.

Carbon Pole
Page 46

TREKMATES®

Trekking Poles: Your Trail Companion.

On a long, multi-day thru-hike, walking poles can be a game changer. They help reduce the strain on your back, hips, and knees by distributing weight more evenly across your body. This not only improves posture and core strength but also minimises aches and fatigue. So, when you reach your day's endpoint quicker and feeling fresher, you'll know who to thank.

Our range of trekking poles caters to every need from the ultralight, three-section Carbon pole with a quick lever-lock adjustment system, to the classic Wanderlock model featuring a traditional walking handle and a durable 6061 aircraft-grade aluminum shaft.

TREKMATES®

Navigation is an essential skill when heading out into the outdoors. Whether you're using more traditional methods of an OS Map and compass on a multi-day hike into wilds of the Scottish Highlands or Speed hiking a horseshoe in the Malvern Hills against your preferred app our collection of compasses and protective cases have you covered.

Our award-winning Twin Seal Map case with its large A4 window allowing 4 panels of a folded OS Map to be viewed. Soft TPU construction with double entry to allow for easy map adjustment and a IPX7 waterproof rating keeping maps dry for up to 1 hour 30 mins when submersed should your adventures take you into water.

The Adventure Compass has been designed for those looking for a lightweight, compact compass with classic baseplate. Its rotating bezel is marked with two-degree dial graduations and a Romer scale of 1:25,000 and 1:50,000 for accuracy. Its luminous needle markings can be relied upon should the days adventures over run.

PRODUCT TECHNOLOGY

GORE-TEX

Well known for providing long-lasting, comfortable weather protection you can trust, GORE-TEX products are durably waterproof, windproof and highly breathable - maximising protection and comfort for the wearer.

WINDSTOPPER™ by GORE-TEX labs

When performance is a priority, but waterproofness isn't, WINDSTOPPER™ by GORE-TEX offers all the durable reliability that you associate with GORE-TEX with the day to day comfort of lightweight active wear. Totally windproof, and highly breathable, these products minimise the effects of windchill, while keeping you comfortable even at your most active.

GORE WARM

These gloves are designed for longer lasting warmth, with the whole system of inner lining, membrane and outer material engineered to enable a higher insulation performance. Even in harsh conditions your hands stay warmer for longer; and, like all GORE-TEX products, these gloves are durably waterproof, windproof and highly breathable - guaranteed.

GORE ACTIVE

Enduring weather protection and comfort, balanced heat transfer and optimum moisture management. Your hands stay warmer when it's cold, and drier when you perspire. This is made possible through the whole system of inner lining, membrane and outer material being optimised for enhanced breathability, increasing comfort in a wider range of temperatures and activity levels.

THERMOPLASTIC POLYURETHANE (TPU)

Available in our Adventure and Navigation range, our TPU retains flexibility as well excellent abrasion wear, tear strength and puncture resistance, even at low temperatures, as well as providing outstanding environmental resistance to gases, ozone, water, oil and chemicals unlike PVC.

REAL LEATHER

All leather used by Trekmat's® is a by-product of the meat industry, and is sourced from RSL compliant Gold rated LWG suppliers. Leather working group (LWG) suppliers have achieved the highest level of certification from the Leather working group by demonstrating excellent environmental performance and sustainability practices.

DRY PROTECT™

Available for gloves, our DRY Protect™ technology offers long-lasting all-weather protection at great value. The membrane has a minimum hydrostatic head of 5000mm and works to allow high levels of breathability, while the insulation, lining and outer material keeps the rain out and hands comfortably dry.

DRY SHIELD™

Used exclusively on our waterproof gloves, DRY Shield™ technology offers lightweight protection from the elements at great value. With a minimum Hydrostatic head of 3000mm, DRY Shield™ products are waterproof, windproof and breathable.

PRIMALOFT

Those spending time in the worst cold and wet weather conditions possible, or those looking for the pinnacle of comfort and performance should look no further than Primaloft Gold Eco Insulation (made of 55% recycled content) - the ultimate in warmth-to-weight available in a synthetic is coupled with incredible packability and softness that mimics goose down. With famed Primaloft water-repellency that delivers wet-weather protection and an easy care package.

POLARTEC MICRO

Made from 100% post-consumer recycled polyester fibre Polartec® Micro offers a light weight lofted fleece for excellent warmth retention and hydrophobic properties. Air pockets in the lofted structure trap and retain warmth while still allowing optimal breathability. The polyester fibres naturally repel moisture and speed up evaporation and drying time.

POLARTEC POWER STRETCH®

Made from minimum of 66% post-consumer recycled polyester fibre the Polartec® Power Stretch® that we use provides an advanced dual-surface knit construction with smooth outer appearance and thermal lofted backing. The high percentage of elastane included offers superior four way stretch and long lasting shape recovery, meaning your garment will keep its fit and shape for longer during wear.

POLARTEC 200 SERIES

Made from 100% post-consumer recycled polyester fibre, Polartec® 200 Series fleece delivers breathable performance, soft comfort, and long-lasting durability. Premium polyester yarns are fast drying, pill resistant and highly breathable. The double velour finish to the fabric provides high levels of warmth whilst remaining lightweight.

WINDPROOF

Available in gloves our WINDPROOF fabrics protect hands from wind chill by providing a windproof barrier to stop heat loss by cold air passing over the skin. Windproof fabrics are also highly breathable and thermally protective keeping hands comfortable and warmer for longer.

SPF 50+

Products marked as UPF50+ have been made and tested in accordance with BS 8466:2006 to ensure a high level of protection against solar ultraviolet radiation. Protection is provided to areas directly covered by the hat and to a lesser extent areas shaded from the sun. High factor sun cream should still be used on shaded and exposed areas of skin.

RECYCLED

All of our polyester recycled fabrics are made with certified post-consumer waste materials like plastic bottles, helping to prevent them ending up in landfill. Please check individual product details to see which items use recycled fabrics. All our recycled polyamide fabrics are made from pre-consumer fibres. Pre-consumer fibres are made from manufacturer waste that would never normally have made it to the consumer for one reason or another. For example scraps, rejects, and offcuts. The stuff that normally ends up on the factory floor. Using pre-consumer recycled fibre purposes some that would have been discarded and sent to landfill in something new.

SEE SEEMAL RECYCLED INSULATION

The SEE® SEEMAL branded insulation is made from certified 100% post-consumer PET recycled polyester fibre. This means that everything that has gone into the making of the fibres is sourced from things that consumers throw away. In this case the insulation is made entirely from discarded plastic bottles. The polyester fibre is naturally non-absorbent so will dry quickly and maintain its lofted structure even when damp.

EXPEDITION QUALITY
ADVENTURE FOOD

Adventure Food, powered by Hans van der Meulen. It was my interest in nutrition and my experience of expeditions which prompted me to put my heart and soul into Adventure Food. I learned the hard way, from first-hand experience, about nutritional requirements in extreme conditions. I now use this knowledge to consistently update and improve the range. It is not always clear how important nutrition and fuel is until you really need it. My experiences, such as the first Dutch expedition to the North Pole and being the first Dutch person to summit Everest without oxygen, have led me to create the Adventure Food range. The range has stand-out nutritional value, taste and ease of use, all of which are crucial for undertaking outdoor adventures. All of the expertise me and my team use can now benefit all outdoor enthusiasts through Adventure Food! For more information on the range please visit:

227G BAYONET BUTANE (4 PACK)

Bayonet cartridge of premium mix butane and propane gas for use with our Dynasty family camping series.

- 227g Butane-IsoButane Propane mix gas cartridge for enhanced cold weather performance effective up to -20 degrees Celsius
- Bayonet cartridge performs better in colder conditions
- Tin construction is resistant to corrosion
- A Countersunk Relief Valve (CRV) system safely releases gas in the case of a build-up in internal pressure
- Filled to the European Standard EN417
- Non-refillable
- Sold in packs of four

Weight: **330g**

Size: **68 x 185mm**

RAPID STOVE

Compact and lightweight backpacking stove with a wind baffled sprayhead for use in any conditions.

- Steel and brass construction for durability
- Manual ignition
- Single burner with a wind baffled sprayhead for use in strong winds
- Serrated pan supports for non-slip use
- For use with pans no more than 18cm in diameter
- Fuelled by a directly attached GoSystem EN417 gas cartridge
- Compatible with any GoSystem threaded cartridge
- 3000 watts
- 213g of gas consumed per hour
- Continuous burn time of 1 hour 10 mins per 220g gas cartridge
- At full power this stove will boil one litre of water in 3 mins 10 seconds
- Storage sack included

Weight: **170g**

Size: **123 x 80 x 80mm**

TM-GS2800

DYNASTY OVEN

Large and luxurious, portable oven perfect for longer family camping trips.

- Steel, brass and tin construction for durable reliability
- Tempered glass oven door is durable even at high temperatures
- Piezo auto-start ignition system
- Built in gauge is limited to 280°C
- 30 litre oven capacity
- 60 mins timer setting makes it easy to control cooking time
- Automatic safety device cut-off function
- Fuelled by a “click in” GoSystem bayonet gas cartridge (G2220)
- 1300 watts
- 96g of gas consumed per hour
- Continuous burn time of 3 hours per 227g gas cartridge

Weight: **10,000g**

Size: **470 x 540 x 310mm**

TM-01010
Grey

TM-GS2299

DYNASTY MULTI-FUEL STOVE

The Dynasty Multi Stove is a multi-fuel stove for simple, easy outdoor cooking and use in cooler conditions.

- Steel, brass and tin construction for durable reliability
- Piezo auto-start ignition system
- Extended feet on pan support prevent pans from over-hanging the fuel containment, and causing the gas cartridge to heat up
- Pan supports are serrated for non-slip use
- For use with pans no more than 18cm in diameter
- Fuelled by a “click in” GoSystem bayonet gas cartridge (G2220)
- Fuel containment includes a cartridge safety locking system
- 2300 watts
- 162g of gas consumed per hour
- Continuous burn time of 1 hour 30 mins per 220g gas cartridge
- At full power this stove will boil one litre of water in 3 mins 45 seconds
- Supplied with carry case

Weight: **1,800g**

Size: **130 x 380 x 280mm**

TM-01000
Black

TM-GS2330

3KG GAS CYLINDER

Refillable butane gas cylinder designed for extended use with gas appliances fed by hose and regulator.

- 2.75kg Capacity
- Standard Gas
- Effective to -3°C
- Dynasty Trio full power burn time: 8.5 hours

TM-GMACH1

MACH 1 SINGLE FLAME

Powerful, single flame, refillable gas lighter perfect for igniting stoves and barbecues.

- Single-burner lighter with an even, steady flame
- Steel and brass burner mechanism for a safe and effective flow of gas, and burn
- Piezo auto-start ignition system is easy-to-use in all conditions

Weight: **46g**

Size: **73 x 26 x 26mm**

TM-GMACH3

MACH 3 TRIPLE FLAME

Powerful, triple torch flame, refillable gas lighter perfect for expedition use in tough conditions.

- Triple-burner lighter for a more powerful performance in all conditions
- Steel and brass burner mechanism for a safe and effective flow of gas, and burn
- Rubber casing is comfortable and helps for a more secure grip
- Piezo auto-start ignition system is easy-to-use in all conditions

Weight: **52g**

Size: **76 x 28 x 28mm**

TM-GST103

THERMO MUG WITH LID

Simple, stylish double-walled insulated mug with lid and compact folding handles.

- Durable stainless steel construction
- Double-walled insulation keeps contents warm
- Folding handle design for compact storage

Weight: **120g**

Size: **80 x 92mm**

TM-01049
Silver

TM-GST104

3 PIECE STAINLESS STEEL FOLDING CUTLERY SET

Easy to carry stainless steel cutlery set with a compact folding design.

- Durable stainless steel construction
- Three-piece cutlery set, including knife, fork and spoon
- Folding handle design for compact storage

Weight: **80g**

Size: **161mm unfolded / 95mm folded**

TM-01010
Grey

TM-GST107

SWIFT CAMP KETTLE

Durable, fire-resistant kettle with a compact lightweight design.

- Lightweight, high-intensity alloy aluminium
- Hard-wearing and fire-resistant for use over an open flame
- Folding handle design for compact storage

Weight: **150g**

Size: **153 x 67mm**

TM-01010
Grey

TM-GST200

SINGLE DOME

Ultralight versatile pan set with a folding compact design for maximum space efficiency when packed.

- Anodised aluminium pan set
- One litre pot and 0.5 litre pan that doubles as a lid for the one litre pot
- Folding handle design for compact storage
- Stacks neatly together, and will stack with one of our trekking stoves and gas canisters inside for maximum space efficiency
- Cleaning sponge included
- Mesh storage and carry bag included

Weight: **228g**

Size: **126 x 126 x 154mm**

TM-01049
Silver

TM-GS150

DYNASTY CAMPFIRE HEATER

Stove top heater adapter for use with our Dynasty stove range, to quickly warm up outdoors.

- Robust design and construction
- Lightweight and portable, easily packing away when not in use
- Quickly radiates heat for near instant warmth
- Included handle for safe removable of heater after use
- Fits easily, and securely to GoSystem Dynasty Compact stove (GS2210)
- Up to 2kw of radiant heat on a high setting
- Continuous burn time of 1 hour 30 mins at full power, or 4 hours on low

Weight: **420g**
Size: **145 x 114 x 114**

TM-01049
Silver

TM-GS2734

TOASTER

Stainless steel toasting plate for easy outdoor cooking.

- Stainless steel
- Toasts up to two slices at a time, quickly and evenly
- Removable fold down handle allows easy and safe use of toaster
- Compatible with GoSystem stoves and oven

Weight: **200g**
Size: **205 x 202 x 18 mm**

TM-01000
Black

TM-GS2700

DOUBLE TOASTIE MAKER

Versatile folding double-pan set for easy outdoor cooking.

- Hinged, double-pan design ensures even cooking and prevents heat loss reducing cooking times
- Food safe, non-stick coating
- Easily separated to make two convenient griddle pans
- The Double Toastie Maker can be used with GoSystem Dynasty Stoves, using GoSystem GS2220 227g Bayonet Gas Cartridge

Weight: **760g**
Size: **410 x 250 x 40mm**

TM-01000
Black

TM-GS2290

DYNASTY COMPACT 2

Single burner, self-contained burner stove perfect for small camping trips.

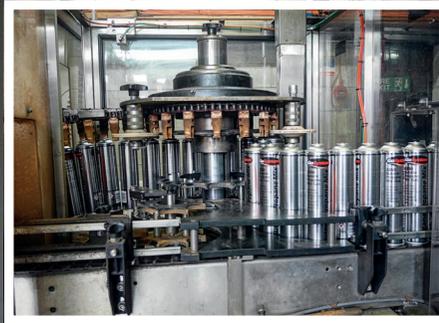

- Steel/Brass/Tin
- Piezo auto-start ignition system
- Extended feet on pan support
- Serrated pan supports for non-slip use
- For use with pans no more than 18cm in diameter
- Cartridge safety locking system
- Fuelled by a “click in” Go System bayonet gas cartridge
- G2220 Bayonet gas cartridge
- 2300 watts
- 162g of gas consumed per hour
- Continuous burn time of 1 hour 30 mins per 220g cartridge
- Will boil 1 litre of water in 3 mins 45 seconds
- Supplied with carry case

Weight: **1800g**

Size: **130 x 380 x 280mm**
